THE
NEW YORK WORLD
THREE-A-WEEK EDITION.
Practically a Daily at the Price of
a Weekly.

The striking and important events of
the last year have established the over-
whelming value of *The New York World*
to every reader. For an almost
nominal sum it has kept its subscribers
informed of the progress of all our wars,
and, moreover, has reported them as
promptly and fully as if it were a daily.
With our interests still extending
throughout the world, with our troops
operating in the Philippines, and the
great Presidential campaign, too, at
hand, its value is further increased.

The motto of *The Three-A-Week World*
is improvement. It strives each year to
be better than it was the year before,
and public confidence in it is shown by
the fact that it now circulates more than
twice as many papers every week as any
other newspaper, not a daily, published
in America.

We offer this unequalled newspaper and
take *MUNYON'S* together one year for \$2.
The regular subscription price of the
two papers is \$2.50.

Dr. Humphreys'
Specifics act directly upon the disease,
without exciting disorder in other parts
of the system. They Cure the Sick.

- DR. HUMPHREYS' SPECIFICS
- 1-Fevers, Congestions, Inflammations. 25

WEATHER INDICATIONS.
WASHINGTON, July 20.-Increasing
cloudiness and warmer in the interior to-
night; probably showers Friday; variable
winds becoming southerly.

THE TEMPERATURE.
The following was the reading of the thermom-
eter at Frank's drug store, today:
7 a. m., 64; 12 m., 66; 3 p. m., 72.

LIVE LOCAL TOPICS.
McQuinn Engine Company holds a
meeting to-night.
The Asylum plays the Waldens to-
morrow afternoon.
The children of Highland and Wat-
kins are having a picnic, to-day, at
Miller's Woods, formerly Harlem
Park.

Car No. 14 burned out a fuse and
was delayed at Franklin Square, Wed-
nesday night.
A broken circle under a wagon at
Franklin Square made some excitement
for the promenaders, Wednesday night.
A car load of trunks was received by
Matthews & Co., today.

Remember the trip to the fishing
banks July 23. Round trip tickets \$2.
The Social Club has a private
dance at Midway Park, to-night.
Mrs. A. C. Knight and daughter,
Mrs. of New Britain, Conn., are visiting
Mrs. Chas. Gueford, of Sprague avenue.

Employees of the Walden Knife Works
have taken from the mill near that place
four carp ranging in weight from six
to sixteen pounds.
Newburgh investors are quite heavy
in the hands of the Mercantile
Co-operative Bank in New York city.

A ho-ho, warning a wallow tail out,
dropped off a West Shore train in New-
burgh, Tuesday, and attracted more at-
tention than most knights of the road.
The Ladies' Missionary Society of
the Second Presbyterian Church will hold
its regular monthly meeting at the home
of Mrs. Fred Rogers, 90 Grand avenue,
Friday afternoon, at 3 o'clock.

Good catches of bass are being made
in the East Branch of the Delaware. The
fish do not run very large but they are
said to be very numerous and very
hungry.
Poughkeepsie's police recently raided
the disorderly houses in that city and
most of the inmates, when fined and or-
dered to get out of town, announced
their intention of going to Newburgh.

William H. Heran, an employee of
Poughkeepsie's Fishkill, was killed
Monday afternoon, by being caught be-
tween a falling log and a tree.
A number of Middletown people at-
tended the first week day at Bennett's
Hotel, Bloomingburg, Wednesday
night. Bright and McWilliams, of this
city, furnished dancing music.

The ladies of W. R. C. No. 180, will
hold a lawn social, with dancing, at the
residence of Mrs. Sinclair Stevenson, cor-
ner Monaghan and Hillside avenues,
Thursday evening, July 27th. Ice cream
and cake will be served. 415, 18, 20, 24, 26
and working men—Our three-hole Home-
dale shoes at \$1.50 per pair, best or
congruous, are positively the best shoes
sold at the price.

INDUCEMENTS TO VOLUNTEERS
The Work of Recruiting the Two
Regiments Being Expedited.
WASHINGTON, July 20.—The war
department is offering extra inducements
to expedite the recruitment of the ten
volunteer regiments. Nearly all the
inducements being offered are in the
disposition of the volunteers to be
advised to enter the ranks, as in that way it
may be possible for them to secure com-
missions. General Corbin says that the
policy of the administration will be to
fill all vacancies in the regular army
commissioned officers from the ranks. A
number of applicants for commissions
have been called upon to enter the ranks
and have been appointed non-commissioned
officers wherever possible.
Another method of securing recruits is
to offer commissions to men otherwise
qualified who will undertake to furnish
in cash or in kind, a number of pro-
cesses as master and soldiers and will
enlist for service in the Philippines. There
have been several cases of this kind dur-
ing the past week. A former officer of
the Texas volunteer infantry recently
came to recruit 200 good men from Tex-
as, provided he was named of a commis-
sion. General Corbin promised him a
second lieutenant if he would recruit
even 40 men for the volunteer army.

THE CLEVELAND STRIKE.
CLEVELAND, July 20.—The police
have succeeded in maintaining fairly
good order along the lines of railroad in
operation, though the task was not a
difficult one. Chief of Police Corbin says
he believes the men have lost the sym-
bols of the strike and are now content
with the last strike and that he be-
lieves, is the reason why there is less dis-
order. A few stones were thrown at
cars passing the corner of St. Clair and
Water streets during the noon hour yester-
day when the strikers were out. The
strikes and clothing factories were out
after luncheon. The strikers maintain
great reticence concerning their plans.
It was announced that a big
mass meeting would be held to-morrow
at 10 o'clock at the city hall. It will
be a daily newspaper, by which they can
present their views of the controversy to
the public.

DEWEY INSTEAD OF BRYAN.
CHICAGO, July 20.—There is talk
here of trying to place the name of
George Dewey at the head of the Demo-
cratic national ticket in the next cam-
paign. Dewey is declared to be the hope
of the Democrats of the east, who feel
that his leadership by opposing the
silver issue. In Dewey they behold a
popular idiom, who could find the laurels
of the boy orator and stamped Dewey
to his support. They think the nomi-
nation of Dewey would mean the perma-
nent shelving of Bryan, the shifting on ac-
count of their recuperative and inspiriting
properties. The bathers do not plunge
into either hot water or lava, as neither
exist in the waters used for baths, nor
do any flames or sulphurous vapors
arise from the hollows. The substance
into which the volcano bather lowers
himself is ice-cold mud, of the consist-
ency of freshly-mixed mortar. These
volcanoes, which are among the won-
ders of California, are fairly numerous,
there being 25 in the Mendocino dis-
trict, which throw up mud instead of
lava when they are in eruption. The
method of bathing is simple, if not com-
fortable, and is attended with risk. A
sapling, cut from the forests and
stripped of its branches, is placed over
the crater so that it extends over the
open ground. The bather crawls
along this sapling until the middle of
the crater is reached, and then lets
his body into the mud, and hangs sus-
pended by the hands from the strip of wood.
If this grasp were relaxed by any
chance the bather would in all probability
sink into the mud and disappear be-
fore help could be rendered.

CRATER BATHING.
Hazardous Nature of a California
Sport That is Very
Popular.
Crater bathing is a leading sport in
Mexico and California, where volcano
baths are frequently taken on account
of their recuperative and inspiriting
properties. The bathers do not plunge
into either hot water or lava, as neither
exist in the waters used for baths, nor
do any flames or sulphurous vapors
arise from the hollows. The substance
into which the volcano bather lowers
himself is ice-cold mud, of the consist-
ency of freshly-mixed mortar. These
volcanoes, which are among the won-
ders of California, are fairly numerous,
there being 25 in the Mendocino dis-
trict, which throw up mud instead of
lava when they are in eruption. The
method of bathing is simple, if not com-
fortable, and is attended with risk. A
sapling, cut from the forests and
stripped of its branches, is placed over
the crater so that it extends over the
open ground. The bather crawls
along this sapling until the middle of
the crater is reached, and then lets
his body into the mud, and hangs sus-
pended by the hands from the strip of wood.
If this grasp were relaxed by any
chance the bather would in all probability
sink into the mud and disappear be-
fore help could be rendered.
